Hi,

I will try to make it the easiest possible.

The following container number loads we are selling to a customer of ours which will come down to inspect and pick up. But only after my authorization they are able to pick up. Now the goods are currently not assigned to me, they are under JNS and Prestige Sales. But, I am having them release it to me, so I can sell it further.

3 containers from JNS
 CBHU8904290
 TGBU8842994
 CSNU7178458

1 container from MM2020
 BEAU4566776

And 2 containers from Prestige
 MATU2709520
 TCLU8010739

Once all is released and ready to load on trucks, please make sure that the JNS goods are the ones accessible to inspect, and they are the ones loaded on the truck last. On every load there should be some JNS goods mixed in, so you should have what to put last on the truck. In other words, we want them rather to see those goods if they inspect.

Hi Heshy,

Please see the attached Excel spreadsheet for today's containers and stock status report.

The two containers have been corrected with inventory. The warehouse may have pulled items for order from the air shipment before the entire count was completed. a majority of orders have stock status report will reflect will reduce quantities. I'm not sure what the other containers are that are expected to be received in the next 2 days, I'll have to check with the receiving team.

Thank you,
Matt

Thanks Matt.

I have a few comments and questions, if you can please help me.

- 1) Container TEMU8130496 is Levmed
- 2) Container BMOU5449439 is Medcare
- 3) Air shipment was supposed to be 2000 cartons, I know the airline lost like 25 cartons, but you show a lot more short
- 4) When you list on the bottom report the totals on hand, do you deduct what was picked up today by Rock Fintek?
- 5) Do you know what other containers you have in yard which I can count on being reported in the next 2 days? Because according to the info of containers that arrived, there should be like

Hi Matt,

Yes thanks so much for these updates, if possible I would also want to see what there is in the warehouse from beforehand in order for me to know I am very low on size small and getting in an air shipment, plus a full container of small, but till then I need to monitor my inventory very closely, so inventory on hand?

For instance below 2 containers have a little small, but not on your list

Hi Heshy,

Please see the attached Excel spreadsheet for today's containers and stock status report.

The two containers have been corrected with inventory. The warehouse may have pulled items for order from the air shipment before the entire count was completed. a majority of orders in stock status report will reflect will reduce quantities. I'm not sure what the other containers are that are expected to be received in the next 2 days, I'll have to check with the receiving team.

Thank you,
Matt

I have a few comments and questions, if you can please help me:

- 1) Container TEMU8130496 is Levmed
- 2) Container BMOU5449439 is Medcare
- 3) Air shipment was supposed to be 2000 cartons, I know the airline lost like 25 cartons, but you show a lot more short
- 4) When you list on the bottom report the totals on hand, do you deduct what was picked up today by Rock Fintek?
- 5) Do you know what other containers you have in yard which I can count on being reported in the next 2 days? Because according to the info of containers that arrived, there should be 1

Hi Anna

We received the load of container number OOCU7022928.

Please see attached photos of the boxes,

- 1) it does not say exam on the box, this is unacceptable
- 2) the factory in back of the box is different than the 510k

These 2 issues are major, I don't know how to solve this, my customer is throwing me back the merchandise, I don't have where to sell it now.

If I would have known this I wouldn't sell it to a government account I would give it to someone that doesn't look.

Hi

I put together a list of things that I need you to do when you are at GTS

1) I need a very important list of all factories with their 510k and FDA certificates. The name of the factory should match the name on the box

See below and fill in/attach.

Factory	510k	FDA
Qingdao		
HFK		
laichuang		
Bear		
Honxing		
Levmed		

2) In March they were supposed to ship 1 million boxes, meanwhile we got bookings thru the beginning of April of only 630k boxes , (2/28-3/12 no shipments)the following are the bookings we got

3/17/21
3/17/21
3/12/21
3/12/21
3/12/21
3/12/21
3/12/21
3/21/21
3/21/21
3/21/21
3/21/21
3/21/21
3/26/21
3/26/21
3/28/21
3/28/21
4/1/21
4/1/21
4/5/21
4/5/21
4/5/21
4/5/21

3) Levmed, Please make sure they ship out this week, this is very urgent, Anna claims they have inspection and will still be able to ship this week. They are supposed to truck it to Shanghai and ship from there, please make sure it is done

ASAP so they can catch the APL ship on Thursday.

4) Cici needs to update the shipping list with the inspection reports per shipment and at least booking numbers, it needs to be more understandable and clear to us.

5) We already asked and didn't get answer, we want to arrange again an air shipment for Levmed for next week, we need to know if and it is doable.

The following questions were sent to Anna based on her production schedule she sent, and I didn't get an answer yet. I am attaching the production schedule

- 1) liachuang factory, no shipments at all??
- 2) How come the Qingdao factory has no production after February??
- 3) Also, the new Honxing factory, no production after February?
- 4) Witwong which factory is this? You list it in the bottom that they ship from Shanghai. Is it the Levmed? So why dont you ship from Shanghai? Also, as asked in another email do they have 510k? we need to see it

Hi,

I will try to make it the easiest possible.

The following container number loads we are selling to a customer of ours which will come down to inspect and pick up. But only after my authorization they are able to pick up.

Now the goods are currently not assigned to me, they are under JNS and Prestige Sales. But, I am having them release it to me, so I can sell it further.

3 containers from JNS

CBHU8904290
TGBU8842994
CSNU7178458

1 container from MM2020

BEAU4566776

MATU2709520
TCLU8010739

Once all is released and ready to load on trucks, please make sure that the JNS goods are the ones accessible to inspect, and they are the ones loaded on the track last.

On every load there should be some JNS goods mixed in, so you should have what to put last on the truck.

In other words, we want them rather to see those goods if they inspect.
